**Subject:** RE: atlantic coast pipeline

Thanks. How about this for Martha today, from a spokesperson. Shortened just to keep it pithy...

The project is under review by our environmental regulators, who are aware of the concerns and examining carefully the effect on North Carolina communities.

This was the quote approved to share from spox on July 26:

The project is under review by our environmental regulators, who are aware of the concerns and are continuing to receive public comment. They are examining carefully the effect on North Carolina communities. At the same time we must recognize the much-needed jobs and energy this project could provide to rural areas of our state.

**Subject:** atlantic coast pipeline

good afternoon,

would gov. cooper like to issue a statement regarding the proposed atlantic coast pipeline? NC DEQ is expected to issue a decision any time now regarding the pipeline's application for water pollution permits in the state. a faith-based group of pipeline opponents gathered today at lunch to say they hope that under cooper's leadership, DEQ will deny the permit application.

thank you kindly,

martha quillin
